Appoints Mr. N. S. Subba Rao. M.A. Principal

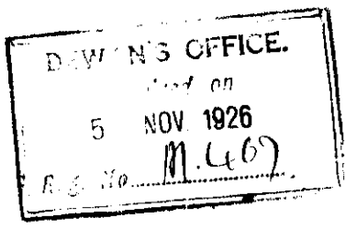
REPLY

(To be written on this margin.)

Office of the Dewan of Mysore

NOTE.

Dated 5th November 1926



I shall be glad if a note is for consideration regarding the appointment of an officer, as stated by me in my address to the Representative Assembly, to collect statistics and prepare an accurate and up-to-date statement of facts relating to each tax or group of taxes that is levied in the State. It is necessary that the work should be started at once. An officer would have to be selected and the lines of work to be done by him settled.

The note may kindly be submitted through the Second Member of Council.

Serial No.

Taxation Inquiry in Mysore.

The announcement made by the Dewan in the last Dusserah Speech was to the following effect:

... 'What Govt. propose to do is to appoint an office to prepare an accurate and up-to-date statement of facts relating to each tax or group of taxes that is levied in Mysore, to see how far the recommendations of the (Govt. of India Taxation Inquiry) Committee in relation to each tax or group of taxes are applicable to our conditions, and — — —

to make his own suggestions'.

The main purpose of an inquiry into the existing taxation in force should be not merely to see if the present scheme is equitable but if it is progressive also and to suggest remedies.

In the words of Sir Basil Blackett — 'Our object is (or ought to be) to examine how and in what directions our existing methods of taxation can be improved, given as a starting point, the necessity of a given scale of governmental expenditure'.

Our revenues are inelastic. The demands for undertaking useful activities involving increasing outlay are various and insistent.

The Tax revenue properly so called is about a crore of Rs only — less than a third of the total Annual revenues of the State. The Excise Revenue forming the bulk of it is in the downward grade. Following the action of the C.I we have abolished the cotton Excise duty and the income of a couple of lakhs thus foregone may have to be replaced by other sources of revenue.

The programme of Land Revenue resettlement has

Sheet

Serial No.

has well nigh been worked out and the income from Land has reached its limit. An advance in Land Revenue has to be expected mainly in the Water rate by the development of Irrigational facilities from the construction of large storage works at heavy cost, and possibly in other miscellaneous items referred to later.

The Indian Taxation Enquiry Committee have laid special emphasis on the desirability of levying the rate for Water commensurate with its value. Their recommendations under the head 'Charge for Water' in page 425 of the Report seem to have particular application for Mysore at the present moment.

The tapping of the revenue from land used for non-agricultural purposes in large towns and the levy of a tax on unearned increment in land values due to improvements financed by Govt. are some of the measures in which investigation may be usefully conducted on the lines discussed in the Committee's report.

An enquiry into the scheme of taxation in Mysore may not, I fear, lead to immediate practical results, unless the financial system as a whole is also simultaneously brought under review.

In this connection, I may mention that Lord Colwyn's Committee appointed to report on the national debt and incidence of the existing taxation in Great Britain, is stated to have recently completed an exhaustive examination of the British system of National finance and submitted its report to the Chancellor of the Exchequer. If these reports are available to the public, we may obtain a few copies for our information.

WD 01264—GPB—40,000—17-12-25

Serial No.

The special officers to be appointed in Mysore may be entrusted with the following items of work.

(1) Collection of materials for a historical review of each of the provincial taxes now levied in Mysore, viz Excise, Tax on Incomes, Stamps & Registration fees, as well as Land Revenue, and the Local Taxes on the lines adopted by the C.I. Committee.

(2) Examination of the incidence of both Provincial and Local Taxation.

(3). Readjustment of Provincial and Local Taxation in the light of the new legislation - Village Panchayats, Dt. Board and Amended Municipal Regulations, and with special reference to Toll receipts, transfer or assignment to local bodies of specific items of receipts eg. Amanaji, Huthbandi to Village Panchayats &c.

(4) Review of Tax revenue of the State in relation to non-tax revenue and with reference to the present and standard of government expenditure and anticipated growth in it.

(5) Feasibility of the adoption of the recommendations of the C.I. Committee, in Mysore with such modifications as are necessary to suit local conditions.

For an investigation of this kind it is desirable to select an officer of sufficient administrative experience in Mysore, as well as knowledge of economics and finance, who may work under the able guidance of Sir Charles Todhunter.

The Special officer may be authorised to correspond—

Serial No

with Heads of Departments, Presidency Local bodies and Secretariat Depts and to have access to public records. It may perhaps become necessary to permit him to obtain statistical information from non-official sources also -

The materials collected by the officer with his own suggestions may be submitted to Sir Charles Todhunter who may be requested to draw up a memorandum for the consideration of Govt -

The special duty may for the present be fixed for a period of four months; subject to further extension if considered necessary -

The officer may be given a Stenographer, a clerk and two peons -

The names of the following five officers of the Dy Commissioners grade are suggested for selection -

1. Mr. N. Madhava Rao.
2. .. S. Shamanna.
3 .. K. V. Anantaraman.
4 .. A. V. Ramanathan
5 .. C. Ranganatha Rao Sahib -

If however it is considered that a junior officer with one of the following assistant Commissioners, who has had training in the Accounts Department may be selected

(1) Mr. B. S. Raghavendra Rao.
(2) .. M. A Srinivasan.
(3) .. S. Appaji Gowda -

The appointment of the a junior officer selected, with the necessary staff may perhaps be announced only after Sir Charles' return from leave; so that the materials

necessary for investigation may be collected under his immediate supervision and instruction.

The D.C. has, I think, been approached for an extra grant to meet the cost of the Special duty -

2nd member) 7.11.26

OFFICE OF THE HON'BLE MEMBER OF COUNCIL.
12 NOV. 1926
No. 3276.

The points to be settled are two viz.,

(1) Definition of the object and scope of the Enquiry

and (2) Selection of an officer to make the Enquiry.

The terms of reference suggested by the Financial Secretary are somewhat wider than the scope of the investigation indicated in the Dewan's Address to the Representative Assembly. A histori review of each tax is not quite necessary. The question of incidence of taxation and taxable capacity involves the consideration of the economic conditions of the people, average income per head of population, distribution of the burden among the different classes of the people, the contribut: made in Rupee forms by Mysore taxpayers to the Government of Indi and other connected matters and it is, therefore, a complex problem the examination of which need no be taken up. Any study of taxation in relation t the future growth of public expenditure is liable to be misunderstood as aiming at the imposition of new taxes. In these circumstances it is best to limit the work to the preparation of a statemen

FINANCIAL SECRETARIAT

Serial No.

statement of the position in regard to each tax with a view to see how far the recommendations of the Indian Taxation Enquiry Committee in respect of it are applicable to the conditions in Mysore and which of them might be adopted by us and to the consideration of the suitability of imposing, in the event of need, the new taxes suggested by the Committee.

All the taxes levied in Mysore are in force in British India and there is no tax peculiar to the State. The position in respect of each tax is also generally the same as that in British India and whatever differences there are, are only in details and rates of levy. The results of the enquiry conducted by the Committee, especially in the adjoining provinces of Madras and Bombay will, therefore, hold good, in all essential respects, in the case of the corresponding taxes in the State. The description of the existing position in regard to each tax will not, therefore, present much difficulty and what will require careful consideration is the advisability or otherwise of the adoption of measures relating to the policy and machinery of taxation recommended by the Committee. The officer placed on special duty for conducting this enquiry may be required to study the questions relating to such measures in consultation with the Heads of the Revenue Departments concerned and make his recommendations.

The enquiry may include in its scope the

ontn.Sheet

Serial No.

the study of not only the taxes levied by Government but also of the rates and fees imposed by Municipalities, District Boards and Village Panchayats. As stated by the Financial Secretary it is desirable to consider as part of this enquiry the question of the resources on which Local Bodies should rely for undertaking the various measures of improvement falling within their spheres of administration. The assignment to Local Bodies of some of the items of revenue now taken by Government and the full utilisation of their own powers of taxation by these Bodies are both necessary for a proper development of Local Self Government and also for preventing undue reliance by them on subventions from Government revenues.

The work to be done may, in view of what is stated above, be defined as under:-

(1) ~~(1)~~ Preparation of a complete statement of

(a) facts relating to each tax or group of taxes levied by Government and Local Bodies;

(b) summary of recommendations of the Indian Taxation Enquiry Committee in respect of corresponding taxes in British India for altering the policy now governing them or for improving their yield or the machinery for their imposition, assessment and collectio

(c) Examination as to how far the recommendations of the Committee are applicable to the conditions in Mysore and which of them may be adopt

ed

Serial No.

adopted with advantage and with what modifications, if any.

(2) Investigation into the suitability ~~to the conditions in Mysore~~ of the new or alternative taxes suggested by the Committee and the desirability or otherwise of levying them.

(3) Examination of the margin of unutilised powers of taxation of Local Bodies and of the question of the assignment or transfer to them of any items of revenue which are now credited to Government but which may, with propriety, be placed at the disposal of the said Bodies for a proper development of Local Self Government.

As regards the officer to be appointed for conducting this enquiry, the Financial Secretary has suggested the names of some officers from among whom a selection might be made. The appointment of a senior officer will add to the cost of the enquiry. An officer of the status of a Senior Assistant Commissioner may be appointed and I would suggest that either Mr. T. G. Rama Iyer or Mr. K.R. Krishnaswami Iyengar may be placed on special duty and entrusted with this work.

As regards the period of deputation and the clerical and menial staff required, I agree with the Financial Secretary.

File No. of 191

Appointment of an Officer in connection with the Collection of all the necessary information about the existing taxes of the State.

Extract from the Proceedings of the Council is put up.

Forwarded, with compliments, to the Financial Secretary to Government, under paragraph 9 * of the Government Order No. G. 17572-8—G. M. 676-17-1, dated 22nd June 1918.

By Order,

Chief Secretary to Government.

14.12.18.

*9. (a) If the views expressed by the Financial Secretary in any case, whether original or un-officially referred, are not accepted by the Member of Government in charge, or by the Dewan and Members of Council, as the case may be, the file containing the discussions shall be sent to the Financial Secretary a second time, in order to enable him, in cases in which he considers that the orders proposed to be issued are opposed to financial rules of Government or to recognised financial principles or for other reasons of a financial nature, are open to objection, to record a respectful representation to that effect, which will be placed by the Dewan before His Highness the Maharaja for consideration.

(b) All cases sent to the Financial Secretary under this rule should be treated as immediate and returned to the Department concerned within three days of receipt.

Submitted to His Highness.

In my last address to the Representative Assembly, I proposed the appointment of a Special Officer to collect statistics and prepare an accurate and up-to-date statement of facts relating to each tax or group of taxes that is levied in the State. The question as to the lines on which such investigation should be undertaken has been considered and the Second Member of Council suggests that the enquiry may be conducted on the following lines:-

(a) Preparation of a complete statement of facts relating to each tax or group of taxes levied by Government and Local Bodies.

(b) Summary of recommendations of the Indian Taxation Enquiry Committee in respect of corresponding taxes in British India for altering the policy now governing them or for improving their yield or the machinery for their imposition, assessment and collection.

(c) Examination as to how far the recommendations of the Committee are applicable to the conditions in Mysore and which of them may be adopted with advantage and with what modifications, if any.

(d) Investigation into the suitability of the new or alternative taxes suggested by the Committee and the desirability or otherwise of levying them.

(e) Examination of the margin of unutilised powers of taxation of Local Bodies and of the question of the assignment or transfer to them of any items of revenue which are now credited to Government but which may, with propriety be placed at the disposal of the said Bodies for a proper development of Local Self Government.

These suggestions are sufficiently comprehensive.

It is desirable to select for this special work an Economist with a good knowledge of the principles of taxation. The question was considered in Council who have resolved as follows:-

"Mr. N. S. Subba Rao may be placed on special duty for a period of two months from February next. His emoluments may be fixed after his return but not so as to exceed his emoluments as Principal."

Arrangements will be made to carry on the investigation on the lines suggested by the Second Member.

The resolution of the Council may be graciously approved.

Mirza M. Ismail

Taxation Enquiry ~~Committee~~ in Mysore.

G.O.No. H 5837-917/

Dated, Bangalore, the 25-1-, 192

In his Address to the last Sessic of the Representative Assembly, the Dewar announced that Government proposed to appoint an officer to prepare an accurate and up-to-date statement of the facts relating to each tax or group of taxes levied in Mysore and to examine and repor how far the recommendations of the Goverr ment of India Taxation Enquiry Committee relating to each tax or group of taxes were applicable to the conditions in the State. Government consider that the enquiry may be conducted on the following lines:-

(a) Preparation of a complete statement of facts relating to each tax or group of taxes levied by Government and Local Bodies.

(b) Summary of recommendations of the Indian Taxation Enquiry Committee in respect of corresponding taxes in British India for altering the policy now governing them or for improving their yield or the machinery for their imposition, assessment and collection.

(c) Examination as to how far the recommendations of the Committee are applicable to the conditions in Mysore and which of them may be adopted with advantage and with what modifications, if any.

(d) Investigation into the suitability of the new or alternative taxes

suggested by the Committee and the desirability or otherwise of levying them.

and (e) Examination of the margin of ~~xxxxxxxxx~~ unutilised powers of taxation of Local Bodies and of the question of the assignment or transfer to them of any items of revenue which are now credited to Government but which may, with propriety, be placed at the disposal of the said Bodies for a proper development of Local Self-Government.

2. Government consider it desirable to entrust this important work to an Economist and they are accordingly pleased to place on special duty for conducting this enquiry for a period of two months from 1st February 1927, Mr. N.S. Subba Rao, Principal and Professor of Economics, Maharaja's College, who was until recently employed as a member of the second Tariff Board of the Government of India to enquire into Cotton Textile Industries.

3. Mr. Subba Rao will be requested to study the questions referred to him in consultation with the Departmental authorities concerned and to make his recommendations.

4. All Heads of Departments, Secretaries to Government and Presidents of District Boards and Municipalities, are requested to promptly comply with ~~xx~~ the requisitions of Mr. Subba Rao for statistical or other information.

5. During the period of his employment on special duty, Mr. Subba Ra

will draw the pay and allowance to which he is entitled as the Principal of the Maharaja's College. Mr. N. S. Subbarao is requested to apply for the clerical and menial staff required by him.

N. S. SUBBA RAO. M.A. (Cantab.)
Bar-at-Law

Bangalore City,
28th January, 1927.

DIARY No.
1926 — 1927
Section: GF.
File No. 14/26
Serial No. 2

Dear Sir,

With reference to G.O. No. Fl. 5837-917/G.T. 14-26-1 dated the 24th January, 1927, I am writing to say that until I have made some progress with the work, it will be difficult for me to state definitely my full requirements in respect of clerical staff. I think, to start with, two persons will be adequate, and one of them must be capable of giving not merely clerical assistance but also of handling the material to be collected. I should like to have the assistance of Mr. B.R. Subba Rao, M.A., of the Educational Department, a former pupil of mine, who is not merely a very competent steno-typist but is also quite capable of handling statistical and economic data. I request that his services be made available as early as possible. The other hand may be a competent steno-typist.

I think a couple of peons will siffice.

I should like to add that while I shall do my best to expedite the report, I am very doubtful if the period now fixed is adequate, as most of the material has to be collected from the different departments before it can be subjected to analysis and a report drawn up.

Yours sincerely,
N. S. Subba Rao

The Chief Secretary to
Government of His Highness the
Maharaja of Mysore, Bangalore.

P.T.O.

Draft.

PROCEEDINGS OF THE GOVERNMENT OF H.H. THE MAHARAJA OF MYSORE.
